Before starting the update, backup your customer files to a USB drive.

Go to the start menu and type **<u>Paint Service</u>** open.

Click on POS DB backup.

Browse to your USB drive or to the Paint folder on the C drive until you can find a USB.

🛃 Paint - Pos Database backup		×
Datacolor PAINT*		
Select the Pos database file path		Browse
	Backup	Close

## Select Save

Download the file that was emailed to you. Save it to the Paint folder.

If you received your update on a USB drive, copy the file to the Paint folder.

Right click on the file and Extract.

Go to the start menu and type **<u>Paint Service</u>** open.

Select Manufacturer DB install.

💱 Paint - Lab Database installation	×
Datacolor PAINT*	
Select the Lab database file (*.bak)	Browse
Install	Close

Browse to the Paint folder on the C: drive. Double click on the file you downloaded.

Your file name will be different from this example.
